---

## Objective

Highly motivated software engineer with 5+ years of experience in developing scalable web applications and machine learning solutions. Seeking a challenging role in a forward-thinking company to leverage my skills in full-stack development and AI-driven technologies.

---

## Education

### Bachelor of Science in Computer Science

University of Innovation, Cityville, ST

Graduated: May 2018

---

## Professional Experience

### Senior Software Engineer

Tech Solutions Inc., Cityville, ST

June 2020 – Present

- Led a team of 5 developers to design and implement a customer analytics platform, increasing client retention by 25%.
- Optimized backend services using Python and Django, resulting in a 30% improvement in application performance.
- Integrated machine learning models for predictive analytics, driving insights for marketing strategies.

### Software Developer

Creative Softwares LLC, Cityville, ST

June 2018 – May 2020

- Developed and maintained features for a B2B e-commerce platform serving over 50,000 customers.
  - Wrote efficient SQL queries to streamline data processing pipelines, reducing latency by 40%.
  - Collaborated with cross-functional teams to enhance UI/UX using React.js and Bootstrap.
- 

## Skills

- **Programming Languages:** Python, JavaScript, Java, SQL
  - **Frameworks:** Django, Flask, React.js, Node.js
  - **Tools:** Docker, Git, Jenkins, AWS
  - **Other:** Agile Methodologies, Data Visualization, Machine Learning
-

## **Certifications**

- AWS Certified Solutions Architect – Associate
  - Certified Scrum Master (CSM)
  - TensorFlow Developer Certificate
- 

## **Projects**

### **Personal Finance Tracker**

- Developed a cross-platform mobile app using React Native to help users track expenses and savings goals.
- Implemented a backend using Firebase, enabling real-time data synchronization.

### **Image Recognition System**

- Built a computer vision application using TensorFlow and OpenCV to classify objects in real-time.
  - Deployed the solution on AWS Lambda for scalability and low-cost operation.
- 

## **Interests**

- Open-source contributions
- AI and machine learning innovations
- Mentoring aspiring developers
